

WOOD – cost effective fuel for the future!

RW International Wood-Energy Week

Jan | 23-27 | 2006 | University of Applied
Sciences (near Berlin)

26.01. First conference day

THE DEVELOPMENT OF WOOD ENERGY IN THE SOCIETAL CONTEXT.

Venue: Haus Schwärzetal

10.00 am *Dr. Dietmar Woidke (Minister for Agriculture / Germany)*

Brandenburg – and the sustainable use of energy from field and forests

10.30 am *Dr. Beck (Ministry of Agriculture Brandenburg / Germany)*

The role of forests and forest resources in the context of a strategy for sustainable development in Brandenburg

11.00 am *Dr. Rebecca Heaton (Senior Renewable Energy Consultant / Great Britain)*

Implication of wood heat and energy on rural areas and rural regeneration

11.30 am *A member of the regional authority of Liguria (Liguria / Italy)*

Experiences with realising wood fuel potential in Liguria

12.00 pm LUNCH

13. 15 pm *Stephen Dahle (Brandenburg Energy Technology Initiative / Germany)*

State Strategies for Promoting Wood-Fuel Use in Brandenburg

13.45 pm *Francisco J. Ayala Schraemli (Agencia de Gestión de Energía de la Región de Murcia / Spain)*

Detailed study of potential energy uses for biomass in the Region of Murcia from agriculture and forestry

14.15 pm *Dr. Ing. Juraj Ruzbassky (Slovakia)*

Processing and use of biomass products in small and medium enterprises

14.45 pm COFFEE BREAK

15.15 pm *Volker Holtkämper (Forstamt Olsberg / Germany)*

Regional promotion for wood based energy – competence centre wood based energy in Olsberg / North-Rhine-Westfalia

15.45 pm *Karl Heinrich von Bothmer (Ministry of Agriculture / Germany)*

Wood fuel production in forests – conflict between ecology and economy?

19.00 pm GET TOGETHER – an meet and eat evening

Venue: Wald-Solar-Heim

27.01. Second conference day

WORKSHOPS WITH LECTURES AND PRESENTATIONS

1: WOOD ENERGY FROM FORESTS –

Venue: Wald-Solar-Heim

10.00 am *Mike Pitcher (Programme Manager Wood Energy Business Scheme / Great Britain)*
What are the goals of Wood Energy Business Scheme, targets and achievement to date – 10.30 am DISCUSSION

10.40 am *Prof. Dr. Jürgen Huss (University Freiburg / Germany)*
Early harvests in young Scots pine stands – a way to high dimensional timber? – 11.10 am DISCUSSION

11.20 am *Eduardo Tolosana (Universidad Complutense de Madrid / Spain)*
Perspectives on Mediterranean Forest Energy: Biomass Sources and Harvesting Technologies – 11.50 am DISCUSSION

12.00 pm LUNCH

13.15 pm *Andreas Neff (University of Applied Sciences and Arts Göttingen/ Germany)*
Quality Management for solid Biofuels – 13.45 pm DISCUSSION

13.55 pm *Erik Baunbaek (Sylvatec / Danmark)*
Production of chips from forest for the energy sector – 14.25 pm DISCUSSION

14.35 pm *Raffaele Spinelli (Italy)*
Fuel chip harvesting in mountain forests – new experiences from the Italian alps – 15.05 pm DISCUSSION

15.15 pm COFFEE BREAK

15.40 pm *Volkmar Schäfer (ETA energy consulting / Germany)*
Cost-efficient Biomass Logistics for small scale projects (Bulgaria) and large scale projects (Bavaria / Germany) – 16.10 pm DISCUSSION

16.20 pm *Dirk Tegelbecker (PEFC Germany / Germany)*
Wood fuel production and forest certification – an area of conflict? 16.50 pm DISCUSSION

2: WOOD ENERGY FROM FIELDS –

Venue: University of Applied Science, building 6, school hall

10.00 am *Dr. Rebecca Heaton (Senior Renewable Energy Consultant)*
Options and opportunities for agriculture related bio-energy production in Wales – 10.30 am DISCUSSION

10.40 am *Prof. Dr. Röhle (Chair of Forest Growth and Timber Mensuration, Faculty of Forest, Geo and Hydro Sciences Tharandt / Germany)*
Growth performance of short rotation stands – biomass modelling and yield assessment – 11.10 am DISCUSSION

11.20 am *Prof. Dr. hab. Henryk Czyz, Dr. Ing. Marek Bury (University of Agriculture Szczecin / Poland)*
Production and harvest of biomass in Western Pomeranian – 11.50 am DISCUSSION

12.00 pm LUNCH

13.15 pm *Dr. Bernd Uwe Schneider (BTU Cottbus, Chair of Soil Protection and Recultivation Brandenburg University of Technology Cottbus / Germany)*
Growth performance and soil development on energy plantation of Poplar and Black locust – 13.45 pm DISCUSSION

13.55 pm *Dr. Gransee („Kalis und Salz“ / Germany)*
Comparing the use of fertilizer in the agricultural and agro-forestry production – 14.25 pm DISCUSSION

14.35 pm *Dr. Ing. Jacek Wereszczaka, (University of Agriculture Szczecin / Poland)*
Polygonum cuspidatum as a additional source of bioenergy – the field experiment – 15.05 pm DISCUSSION

15.15 pm COFFEE BREAK

15.40 pm *Frank Burger (Bavarian Forest Institute / Germany)*
Planting and harvesting of short rotation forests in Bavaria – 16.10 pm DISCUSSION

16.20 pm *Dr. Heino Wolf (Federal forestry company Saxony / Germany)*
Poplar plantations for the production of pulp wood – Indications for the production of biomass for energy supply 16.10 pm DISCUSSION
