

BEAM 21 - Blended capacity-building on sustainable energy measures and action plans for European municipalities

Facing the relevance of energy for the economy of the European States and considering the global crises, the question of energy saving and intelligent energy management is one of the decisive questions to achieve European climate protection targets. Municipalities are one of the most important actors to reduce GHG emissions. BEAM 21 steps in at this point supporting local capacity building by developing and implementing capacity building training programmes for European municipalities on municipal climate protection and intelligent energy measures. The trainings address municipal staff as well as municipal politicians engaged or interested in at least one of the following areas: climate protection, energy supply, budget, procurement, tendering, municipal building sector, education, public transport, town and land planning. The project suits different needs of local decision makers and staff, furthermore the presented contents consider the specific situation of the participating municipalities.

The project is funded by the programme „[Intelligent Energy – Europe \(IEE\)](#)“ of the European Commission and coordinated by the [Heinrich-Böll-Stiftung Brandenburg](#).

Project partners are:

- [Heinrich-Böll-Stiftung Brandenburg](#), Germany
- [University of Applied Science Eberswalde](#), Germany
- [Talheimer Verlag](#), Germany
- [Local Energy Agency of the Greater Lyon](#), France
- [Austrian Green Foundation](#), Austria
- [Public Environmental Centre of Sustainable Development](#), Bulgaria
- [Focus Eco Centre](#), Romania
- [Environmental Centre for Administration and Technology](#), Lithuania
- [Foundation for Environmental Education](#), Latvia
- [Foundation Institute for Sustainable Development](#), Poland
- [Centre for Environment and Development](#), Poland
- [Association First Warsaw Agenda 21](#), Poland
- [City of Geislingen](#), Germany
- [Movement Rainbow – Friends of the Earth](#), Czech Republic

Time span: 09/2009 – 09/2012
